Sublime Developments

Development. Projects. Relationships.

projects dos●

At Projects Dos, we develop properties that are more than buildings.

Each of our premium-quality residential projects is a distinctive reflection of a core philosophy that is centred around:

- Prime location
- Outstanding design vision
- Premium quality build
- Superior livability

These four pillars define our approach. They are the elements that set Projects Dos apart.

We are a private family-owned project development and project management consultancy with decades of industry experience. We bring together a network of exceptional and trusted consultants, tradespeople, and professionals to deliver every project.

Our proven track record stems from our unwavering commitment to quality and an exceptional ability to find and develop property opportunities across South East Queensland.

Whether you are looking to invest, engage with our services, or join our network of trusted delivery partners, we look forward to hearing from you.

Our projects

Located in prime urban and coastal locations across South East Queensland, discover the collection of premium and luxury residential developments we have brought to completion.

Explore projects

Collaboration and innovation

We take a people-first, design-informed approach to development—where great ideas meet rigorous execution. Each project begins with carefully considered locations, is shaped by clear intent, and brought to life with a sharp eye for detail and enduring quality.

Strong relationships are the backbone of our success. We partner with trusted professionals across every discipline—finance, sales, design, and construction—curating teams with deep expertise and a shared commitment to excellence.

Rather than chasing trends, we focus on creating spaces that are intelligently planned, beautifully crafted, and built to last. We value creativity grounded in precision, and ambition anchored by experience.

Working alongside acclaimed architects, designers, and consultants, we deliver distinctive spaces across residential, commercial, and mixed-use environments. Whether it's high-end apartments or inner-city revitalisation, our work reflects a consistent dedication to quality and the people who help shape it.

Our Expertise

Development plus

More than just a developer, Projects Dos offers industry-leading capabilities in property advisory, development management and project management.

Project management

We turn visions into reality with end-to-end expertise and oversight from design to build to completion and handover.

Property advisory

We are the trusted experts to turn to for professional advice across town planning, funding, feasibility, risk and procurement

Development management

We are focused on the success of every development, managing all aspects across marketing, sales and settlement.

Trusted relationships sit at the heart of the Projects Dos approach to development. Across finance, sales, design and build we bring together a team of experts with outstanding capabilities to deliver every project.
